[7] A story in which the main character was Urgal. [7] References [] COURT PEXELS.com Image. Our most recent question and answers article highlights Christopher's thoughts in the book five, future and restarting stories of potent wasgon movie of the recent Reddit Ama. No way to check out our previous recap It is not forgotten that you can ask your most pressing questions in Twitter and Facebook accounts. Book Five Destinywielder: There was a little murmur about the vague entities called Shadow Without (from the Guide from Eragon to Alaga-sia) and Nameless One (Jood's letter from the luxury edition of the inheritance). These vague entities are real and played important in the book five or future books? These are two different things, yes, instead of interchangeable tanchos Have we seen these things before? Is there any information in no spoiler that you can give us, readers, about these two vacant rights that would be interesting? They are real. They are important. As for if they are the same or different thing: no comments. Yes, you saw the one I am referring to, although it is not in your current form (s). In formation? . . . Beware of shadows that seek to use mirrors. Destinywielder: Eragon and Saphira is not the main characters in the book five, right? They appear as special participation, yes? You said that some element of book five was created in the previous books and no one guessed what it is, right? Correct. Eragon/Saphira not to be the main characters in the book V. And yes, I put some foundations for the book V in the previous books. Some were seen. Some not so. It's fun to see the reader's enthusiasm for guessing. Malevolentcarrot: e āferences "Angela - How old is she? Where did she come from? Which Did you get the loyalty of solumbum, Werecat? Is she atmosphere? human? a book all about Angela planned. monicavisco: In your next book will you give an ending to the storylines that were unclosed? Like Eragon and Arya meeting each other again, or the training of new dragon riders? Yes. But not necessarily in the way you expect. *ĀĀĀĀ odd-faust: Is it confirmed that Saphira and Firnen mated at the end of Inheritance? And if so does that mean that Saphira is now capable of laying eggs? Yes, they mated. Whether or not that leads to little baby dragons . . . well, youĉĀĀĀĀĀĀĀ have to wait until Book V to find out. *ĀĀĀĀ TheUsualAbnormal: Is Tenga going to play an important role in book five? No comment. *ĀĀĀĀ derpduleB: Will we be getting an expanded map in V? Quite possibly. *ĀĀĀĀ BEYOND BOOK FIVE DestinyWielder: Are you going to write more books in the world of Alagaesia after Book Five is written? If the answer is yes, how many more books are you planning on writing? Yes. How many? I have at least three planned, but they arenĉĀĀĀĀt direct continuations in the way Book V will be. Ultimately, itĉĀĀĀĀs going to depend on how long I live. Lol. DeweyDD: Who were the strangers who Angela read their fortune for and who helped Roran? The main characters of another story. *ĀĀĀĀ MĀxñificĀntz: Do Eragon and Saphira travel to the moon? Not in the books, but who knows what the future may bring? *ĀĀĀĀ don. martingalo: Would you ever consider writing a book that takes place during the war between elves and dragons? Yes. theqwert: Do you think Elva and Thorn ever met after Inheritance? They will definitely meet at some point. No question about it. Alexander 0714: do you plan on writing a book about Eragon and SaphiraĉĀĀĀs travels outside of Alagaesia, and them training new Riders? What kinds of things/people/monsters are they encountering? WhatĉĀĀĀs the environment like? How long will it take them to find a place to train the new Riders? Maaaybe. (Actually have a title for it and story all worked out. And no, itĉĀĀĀĀs Book V. :) BigjCote: Can we have a book entirely for Thorn and Murtagh to post Galby's death? I'm not planning to write a book just about Murtagh and Thorn, but be sure, let's see them again. iMaxing: Before Brom died, he whispered 7 words in Eragon. Will it be mentioned in Book V? They are a matter of another book (not Book V. lol.) I .dont-get the-joke: We can get a book dedicated to Galbatorix and his rise to power. Perhaps from the perspective of the previous king, Eragons master and Galbatorix himself? What are the chances of that happening? It would be an interesting story to write. Maybe sometime. © ERAGON MOVIE hpfred: If a new movie happens, would you rather go the JK Rowling route in Harry Potter, be protective, but let others write, or JK route in Fantastic Beasts, write the script yourself? If a new movie happens, I'd like to be involved as much as possible. At this point, I understand the story much better than anyone else is going to go outside. Gamma Games: If it ever happened, would you rather a screen adaptation be in the movies or on television? Why? Movie — just because I feel that Eragon is inherently more than a movie than a TV show. However, I would not be entirely against the idea. It would only depend on the execution. Alex1921: Have you released Eragon as a TV show or mini series for studios or Netflix? I have — and I believe that some places even looked to make a TV show on several times. However, the rights are owned by Fox, and until Fox decides to do something with them, nothing will happen. Maygus180: If you could have some video game studio to do work in a deep-rooted solid video game in the world Eragon that you would like to work on it and what kind of game would you like? Cyan studios (back when they made Myst or Riven.) It would be amazing to have one of these gamesTronjheim.
